

CLEAN-O-FLEX®

Complete penning programme

- Focus on finish: plastic plugs, rubber sealing and locking system ensure completely tight and closed equipment
- Easy and effective cleaning and thus new stall effect whenever the pen is washed
- Rounded edges and corners ensure animals welfare
- Lasting materials: unleaded PVC and stainless steel
- Gates can be operated with one hand and can be slammed - it saves time
- Innumerable combinations

| CLEAN-O-FLEX® |

Tight and closed equipment...

CLEAN-O-FLEX® is a flexible system based on stainless U-profiles. With standard height of 75 and 100 cm it can be used especially for weaners, WEAN-TO-FINISH and finishers. *Focus on finish*: plastic plugs, rubber sealing and locking system ensure completely tight and closed equipment everywhere. It ensures the possibility for easy and effective cleaning and thus new stall effect whenever the pen is washed. Rounded edges and corners ensure animals welfare.

U-PROFILES

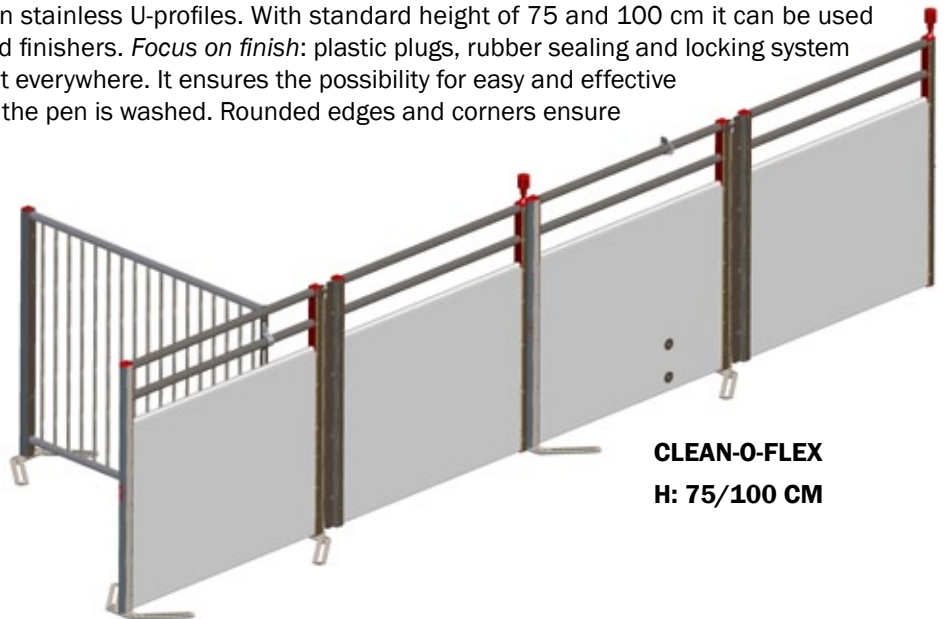

1,5 mm stainless steel in patented design

BOARD PROFILES

35 mm with patented zig-zag reinforcement

PIPES

33,7 x 2,65 mm hot galvanized

CLEAN-O-FLEX
H: 75/100 CM

- Gates can be operated with one hand and can be slammed - it saves time
- Innumerable combinations and still the pen function and unity is kept
- Universal solution for all pen units with growing pigs

- Lasting materials: unleaded PVC and stainless steel
- Patented material design with maximum resistance to all kinds of exposures

The gates are mounted on sloped hinges, so that they raise when opening. When closed the gates fit tightly to the floor and prevent manure in the aisle.

Subject to changes in materials and design is reserved.
